**A Hackathon Leveraging APIs to Build
Unique Solutions**

Oct' 15-16, 2021

apihacks.co

Sponsor Prospectus:

What is API Hacks 2.0?

- Our objective is to build a digital footprint for the student developers and encourage them to integrate APIs within their solutions.
- After the success of the first-ever API Hacks by Tech Phantoms, this year's hackathon brings in a lot more to offer to the students.
- The hackathon provides a fun yet challenging way to gain knowledge about APIs and gives a lot more opportunities to use them within projects.
- The hackathon aims to focus on increasing diversity in the field of programming and help the developers focus on creating competent solutions.

Why Sponsor API Hacks 2.0?

- Our hackathon encourages new and upcoming developers and helps them build a digital footprint within the tech space. Out of 700 registrations last year, we had almost 300+ registrations from the freshmen/freshers alone.
- All of our sponsor packages include a wide variety of options for increasing brand exposure as well.
- It's a great opportunity to be a sponsor of this hackathon as it helps you in meeting your recruiting goals, by interacting with passionate student developers and spread the word about your company and its services among the younger/new attendees (Freshers).

How can you help?

- Be the Monetary Supporter by providing our hackathon with the flexibility to ensure that all needs are fully catered to.
- Be the Outreach partner by helping with marketing and promotion; often publications.
- Be the Community partners by contributing to the culture of the hackathon providing you with mentors, judges, support staff etc. to make your hackathon run smoother.
- Provide Participants with API directory access.
- Promote your company by providing some amazing swags and swag kits.
- Shipping and handling of swags.
- Student Guides and Mentors for Varied experience levels.
- To contact us at staff@apihacks.co
